**Happy Thanksgiving from the Board of Directors at Curry Ridge Riders !**

**We hope this finds all of you and your families in good cheer and fortune for the upcoming holiday season. Now that the elections are over, we at the Board of Directors are about to double our efforts. Snowtrac trail maintenance and snow-grooming funds for the 2016-17 winter have been released....but only after the huge barrage of emails, letters and phone calls from you and us to Governor Walker and the House Reps. Everybody--including all the snowmachine user groups around the state scrambled to let the Governor know it wasn't just about play-time. Many of us depend on snowmachine trails as commerce and freighting of goods for our livelihood not even to mention the need for family safety concerns and emergency evacuation routes.**

**Curry Ridge Riders Board of Directors will be working harder to meet with legislators and write those letters in the next two months to appeal for Supplementary Budget considerations for 2017. We're making an exhaustive effort this winter to represent you, but we can't do it alone. There will be more information coming on just what you can do to keep the heat cranked on Governor Walker and our state legislators so stay tuned.**

**Curry Ridge Riders also assembled and submitted an application this year for Recreational Trails Program to reestablish, restore and replenish the safety signs you see all over the South Denali winter-use trail system. We are hopeful we will know the outcome early in 2017 with actual work commencing soon after. It will take significant contribution in the form of manpower from all of us to get it done. Needless to say, we will be looking for lots of volunteers in the coming year.**

**And we devised an all-new weatherproof trail map of the South Denali trail system which is now available from the club or many of the retailers throughout the area. If you don't see the Curry Ridge Riders Trail map, ask your favorite merchant why they don't have any ! Proceeds from the sale of these maps benefit the club directly.**

So here we are, wrapping up yet another year of amazing progress in the South Denali snowmachine trail system and Curry Ridge Riders is here for YOU. We want and really need your support and anyone that you can think of like never before. Get your friends, co-workers, neighbors and community organizations to join Curry Ridge Riders. Remember, memberships expire on September annually and we need all the support we can get right now. Consider joining our efforts as a Board of Director for the club as we have some seats to fill with no technical expertise required--just your thinking cap. And be sure to frequent businesses that support the club by telling them so. Lets keep the South Denali Trail System and all the hard work put into it available in the years and generations to come every way we can.

Be sure to check out our Facebook page and the hotline phone numbers below for the latest issues and trail condition reports.

Happiest of Holidays everyone !
